

# DOMESTIC ULTRAVIOLET UV 304 SERIE

UV 11W serie 304

UV 25W serie 304

Ultraviolet sterilization equipment UV series 304, manufactured with AISI 304 stainless steel body, equipped with alarm system in case of malfunction.

### ADVANTAGES OF ULTRAVIOLET DISINFECTION UV 304

- It eliminates all types of algae, fungi, germs and viruses contained in the water.
- It does not leave residues, reason why the water will not contain toxics, pollution or residues after its use.
- Easy to use
- It can be applied in different environments, such as hospitals, food industry, medical industry, etc.
- Low cost; the technology is simple.
- Lamp life: 8000 hours
